

# Conversion

Quality Time at Sea Requires Quality Equipment Onboard

Converting from manually operated to motor-driven is made easy by ANDERSEN Conversion Kits®. Our conversion kits can be fitted to your ANDERSEN Winch® from size 28ST to 110ST. Installation is made easy by the Modular Power System®. If in doubt, please consult your distributor for more specific information regarding conversion kits for your ANDERSEN Winches. Even more detailed information and installation guidelines are available via our separate Electric or Hydraulic Data Sheets.

## Electric Conversion Kits®

Available with a single-speed, 2-speed gearbox or Compact Motor in 12V or 24V models for winches size 28ST to 72ST.

The ANDERSEN 78ST FS and 110ST FS Winch is only available as a 2-speed, 24V model. The electric conversion kits are delivered mounted to the stainless steel connection plate – complete with an installation manual, electronic box, switches, and cable terminals.

## Hydraulic Conversion Kits®

The hydraulic conversion kits can be fitted to ANDERSEN Winches size 46ST to 110ST FS. The hydraulic kits are delivered mounted on the connection plate, complete with a hydraulic motor and installation manual.
