

**OLYMPIC® 135
Compass**

- Designed for boats 30' (9m) and larger
- Crisp red or black card and 5° graduations are easy to read
- One fore-and-aft line plus four lubberlines for excellent visibility from any angle
- Horizontal-read flat cards are slightly dished for improved readability
- Spring-mounted directional system for maximum absorption of shock and vibration
- Accurate at up to 45° of heel
- Tunnel rods provide access to the built-in compensator via the binnacle
- Viton® diaphragm allows fluid expansion and contraction to prevent bubble formation
- Includes 12V/24V double lighting (2 bulbs), built-in compensation and installation template
- Articulated hood doubles as a sunshield/nightshield and protective cover—slides fully open, partially open and closed with audible click-stops
- Optional binnacles fit standard pedestals; mounting kits for other pedestals are available
